

Important Information about Paying for Your Care at Westchester Medical Center Advanced Physician Services, P.C. (WMCAPS)

Westchester Medical Center Advanced Physician Services (WMCAPS) is a participating provider in many health plan networks. You can find a list of the plans in which we participate at <http://www.westchestermedicalcenter.com/aboutaps>.

Some health plan products may use smaller networks, so it is important to check whether we participate in the specific product you are covered by. Please call us at 914-570-8745 if you have any questions. This is not the number you would ordinarily use to reach your physician. Therefore please direct questions concerning your care to your physician's office. We also encourage you to call your health plan to confirm participation by any provider.

At times, you may need services that are performed in a hospital. It is important for you to know that in most circumstances the physician services you received in the hospital are not included in the hospital's charges. Physicians bill for their services separately, and may or may not participate in the same health plans as the hospital. You should check with the hospital (the physician can tell you which one) to determine if that hospital participates in your insurance plan.

Your appointment may require you to receive services from physician(s) other than the physician arranging for your care. In these cases, we will tell you who these physicians are and how to contact them.

We are required by law to make available information about our standard charges for the items and services we provide. If you have questions about your financial responsibility, please call 914-570-8745. Upon your request, we will provide an estimate of the amount you will be billed.
