

2025 Accomplishments

- Recruitment of new WMCHealth President & CEO Dr. David Lubarsky.
- Developed new 2025 Strategic Plan and new Governance Structure.
- Developed new AI systems implementation across the network.
- Secured the first-ever New York State capital grant awarded to WMC through the Safety Net Transformation Program (SNTF), supporting infrastructure modernization and integration across the full network.
- Strengthened financial sustainability through disciplined cost management, revenue optimization, and improved operational oversight.
- Recruited and onboarded the first-ever Chief Clinical Officer for the network to advance clinical integration, quality, and system-wide alignment.
- Launched development of a system-wide Strategic Plan to guide growth, investment, and long-term positioning.
- Advanced planning for an integrated EMR and modernization of IT and financial systems to improve data access, productivity tracking, and decision-making.
- Continued progress on construction of the Critical Care Tower.
- Strengthened academic partnerships and workforce development initiatives to support physician recruitment and long-term sustainability.
- Maintained full accreditation across all facilities.
